

Media Release 1/24/23 - Fund Balance

Dear Community Members,

School Finance is a very complex system so I thought it would be beneficial to provide some information that you may find useful.

Fund Balance

Fund Balance IS: Assets (What a district owns) less Liabilities (What a district owes). It consists of cash, cash equivalents (i.e. investments), and non-cash components (i.e. taxes receivable, payables).

Fund balance is often confused as cash. However, fund balance IS NOT the equivalent of a person's savings or cash accounts. It IS NOT entirely cash that can be used for any purpose. Financial cash reserves (cash and cash equivalents) are only a portion of fund balance.

Why are sufficient cash reserves so important?

The Mellen School District's financial cash reserves must be adequate to protect the short-term and long-term educational opportunities for our community's children against some type of financial disruption.

Insufficient cash reserves will result in the district borrowing to meet cash flow needs. Borrowing will result in an additional interest expense borne by taxpayers and fewer taxpayer dollars available for needed educational programming.
